PUTTING YOU IN CONTROL
MORE CONTROL. MORE TRANSPARENCY. MORE PROFITABILITY.

POWERED
BY

MYDRYCLEANING.NET TAILORED TO YOUR BUSINESS

No need to go to the expense and trouble of developing your own app or online store, MyDrycleaning gives you a brand-able, cloud based tool with all the functionality you need for receiving pickup orders, communicating with your customers, managing orders, deliveries, drivers, routes and lockers.

Seamlessly integrate MyDrycleaning into your website with your existing brand, colors, themes and logos or if you don't have a website, MyDrycleaning gives you an online presence.

MYDRYCLEANING.NET

MyDrycleaning lets you communicate directly with your customers for orders, pickups, deliveries, order tracking, order progress and payments, all accessible via a link embedded in your website. Retain your own branding using this cost saving, order management tool whilst providing an easy order placement and order tracking experience to your customers.

• Gives you a web portal accessible from any internet enabled device, for customers to place pickup and delivery orders, with or without your own website.

- Integrates with your existing website with a fully customizable interface to match your brand, colors and logo.
- Enables customers to access their full order history, including reports on amount spent in a specified date period.

• Communicate via mydrycleaning notifications to let customers know their order status.

• Separate dry cleaner and customer logins to communicate and manage orders

ROUTE MANAGEMENT SYSTEM

Manage routes, drivers, pickups and drop offs using the mydrycleaning route management system. Track and locate drivers and deliveries with geolocation, date and time stamps at each step of the order process.

• Schedule both permanent and on demand orders in the same place using the dry cleaners login
• Separate driver login to view and manage routes
• Real time scheduling straight to the driver's device

• Delivery tracking with date, time and geolocation stamps to verify successful deliveries

• Locate, track and communicate with drivers in real time

AUTOMATED NOTIFICATION SYSTEM

Provide customers with real time, customizable, automated order notifications, directly out of mydrycleaning.

- Fully customizable notifications via email or SMS
- Notify customers of the status of their order and send pickup reminders automatically
- Process payments seamlessly when an order is ready and notify the customer of the payment automatically

- Automatically advise customers when a payment fails
- Harness the notification technology for marketing purposes with specials, coupon codes and discounts for their next order

ABOUT DCCS

DCCS is the market leader in delivering innovative, high-tech, automated solutions to businesses facing challenges posed by the management of large textile assets, such as uniforms, linen and general garments.

Our success is based on the recognition of the responsibility to deliver more than just a product, but a fully implemented, bespoke solution which provides our clients' businesses with real cost savings, visibility and huge efficiency gains.

All our relationships with our clients begin with a comprehensive analysis of their operation. We believe through cultivating strong relationships with our clients, we are better able to fully understand their needs and bring together the partners, services and products to build a total solution to help combat tougher competition, ever increasing costs and shrinking profit margins, in high cost environments.
